

Table 1 High level meetings in 2015

Meeting	Date/Venue	Output
3 rd WCDRR	14-18 March Sendai	Sendai FDRR (2015-2030) to replace HFA (2005-2015)
International SABO Symposium	18 March Sendai	Recommendation on Priority Actions for Sediment Disaster Risk Reduction
UN Summit on Sustainable Development	25-27 September New York	SDGs (2015-2030) to replace MDGs (2000-2015)
COP 21	30 November-11 December Paris	New framework for greenhouse gasses (GHGs) emission reduction (Paris Protocol) after Kyoto Protocol (1997)

Table 2. SDGs and Targets relating to DRR

<p>Goal1. End poverty in all its forms everywhere</p> <p>1.5 By 2030, build the resilience of the poor and those in vulnerable situations and induce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters</p>
<p>Goal 2. End hunger, achieve food security and improved nutrition, and promote sustainable agriculture</p> <p>2.4 By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively impose land and soil quality</p>
<p>Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation</p> <p>9(a) Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial technological and technical support to African countries, least developed countries, land locked developing countries, and small island developing states</p>

Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

- 11.5. By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic and losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations
- 11b. By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels
- 11c. Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials

Goal 13. Take urgent action to combat climate change and its impacts

- 13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries

Goal 15. Protect, restore and promote sustainable use of territorial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

- 15.3 By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation- neutral world
